KP-150

Slicer with Automatic Packer

Ultimate Labor Savings

Enables one worker to do the labor of four.
Achieves drastic labor reductions.
Automates sliced meat production, reduces labor.

KP-150

KP-150 features

- **Drastic improvements in material handling**
Just leave the tray packing to the machine! The KP-150 can supply trays and material without stopping.
- **High precision tray packing**
The conveyor end extends and retracts during packing to ensure meat is positioned evenly on each tray.
- **Drastic increase in material yield rate**
The proven band knife and swinging slice system from our AX and AZ models drastically increases yield rate.
- **Reduces discrepancies in slice volume**
Gapless meat feeding ensures stable sliced meat packing volumes on trays.

Four dimension feed conveyor Conveyor extending Conveyor retracting

- Four dimension conveyor delivers end-piece materials neatly.
- Nippon Career's transfer rollers automatically pack sliced meat from the conveyor onto trays.
- The conveyor extends and retracts to pack meat evenly onto trays.

Max. 250mm

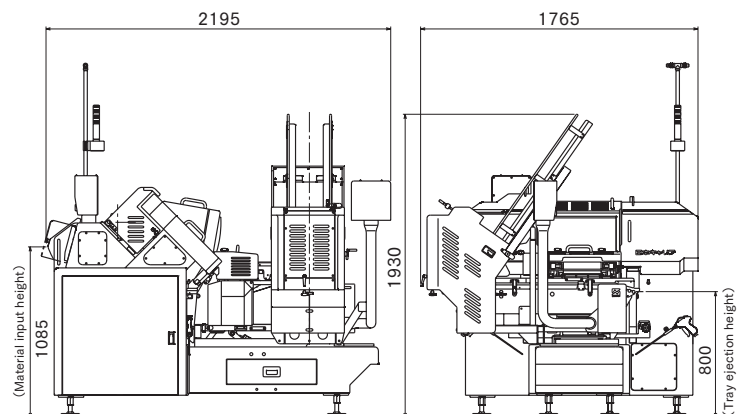

- Trays are fed automatically to the machine after being set in the tray-magazine.
- Packing coordinates are set according to tray size.
